## Printing Problems

The Adobe Acrobat™ system of readers supports IBM-PC type computers running DOS and Windows. FREE readers are also available for the Apple Macintosh and Sun “SPARC” Workstations running under the Unix operating system. If your software source does not have the correct reader for your system, they can be obtained via Internet from: [ftp.adobe.com](http://ftp.adobe.com)

Printing is supported for raster-type printers, like an HP LaserJet, and Postscript printers. Printing may be done in either monochrome or color, depending on the printer you have available. Please note that some of the Adobe Readers, like Version 1.0 for DOS, may not support color printing, or only support color printers in the monochrome print mode.

When printing to any inkjet printer, make sure you use a print buffer so the printer receives a constant stream of data. This prevents minor gaps and blurs if the printer has to wait for more data. This is particularly important for color inkjet printers.

For Windows printing, make sure to use the Print Manager for print buffering. If you have difficulty printing under Windows, make sure that you have sufficient free disk space for the buffer files created by the Windows Print Manager. As an example, each printed color page requires about 500-kbytes of disk space — during image processing, the disk requirements can be greater than 4 Mbytes for temporary files.

### Not Enough Disk Space

In extreme cases, not enough disk space shows as either a terminated print — the program appears to print, but nothing happens — or error messages like “Insufficient Memory” or “Not Enough Memory To Print.” Some versions of Adobe Acrobat can give a General Protection Fault in “module unknown” and terminate while attempting to print. Free up space on your hard drive by deleting unused files or programs.

Or, try printing a single page at a time. Remember, processing color images takes a great deal of disk space for the temporary files. You may need to have 10-12 Mbytes of free disk space for the temporary files and the Print-Manager's, or print buffer's, image files for a non-Postscript printer.

### Extremely “Thin” Lines

The illustrations are drawn with “thin” lines to fit a wide range of printers. The Adobe Acrobat print routines set these thin, or hairlines, to the precision of the printer you use. Lines printed on a 300-dpi laser printer will be one “dot” wide. Printing the same image on a 600-dpi printer may give extremely thin lines; 1/600th of an inch wide. If you use a high-resolution printer, try setting your printer to a lower resolution — this automatically widens the thin lines.

## Copyright And Fair Use

All images are copyrighted. Permission is granted **ONLY for non-commercial personal use**. They may not be duplicated in any form, including electronic, mechanical or printed, for sale. All rights are reserved and duplication by any means, including, but not limited to, methods of printing, electronic storage and disk copies, is prohibited without permission.

**These File(s) MAY NOT BE PUT ON A SYSTEM IN A DOWNLOAD AREA SUBJECT TO A SURCHARGE!**

**IF YOU PAID A DOWNLOAD FEE, OTHER THAN NORMAL LINE CHARGES, DEMAND YOUR MONEY BACK! YOU HAVE BEEN RIPPED OFF BY THOSE THAT COPY OTHER PEOPLE'S INTELLECTUAL PROPERTY AND SELL IT WITHOUT PERMISSION OR PAYMENT TO THE AUTHOR. CHARGES TO DOWNLOAD THIS FILE/PROGRAM ARE CONTRARY TO THE COPYRIGHT!**

Only the **SAMPLE FILES** and a **REGISTERED** file **WITHOUT** the **ACCESS CODE** may be freely distributed, provided the Copyright notice remains intact. **You may NOT duplicate, sell or give away, in any form, your ACCESS Code for a Registered version.**

**IF YOU UPLOAD TO ANY OTHER COMPUTER, MAKE A DISK COPY FOR A FRIEND, ETC., THE ENTIRE SAMPLE PDF/ZIP FILE AND ANY ACCOMPANYING DATA, AS SUPPLIED, MUST NOT BE MODIFIED OR CHANGED IN ANY WAY!**

**SHAREWARE DEALERS/DISTRIBUTORS PLEASE CONTACT ME FOR WRITTEN PERMISSION PRIOR TO MAKING OR DISTRIBUTING ANY COPY(S) OF THIS SOFTWARE.**

Only the copyright owner, Phil Koopman, Sr. and/or **FLY'N THINGS™**, can give permission for copies to be made. Permission is granted for disk copies to be made freely for 30-day evaluation purposes, provided that they are marked as Shareware and do not include a License Data File or Access Code.

**Please honor the Personal-Use Copyright Notice.** We are trying to supply a low-cost service. Our goal is to make low-cost models and information available to all modelers. — not just those with the big bucks that can afford to pay for commercial models, plans or rare books.
